Sixteen Months After the Fire Which Destroyed

REV. EMORY L. BRADFORD,
Pastor of Congregational Church, East Weymouth

A BIT OF HISTORY.
At about 5:20 o'clock the afternoon of
Sunday, February 8, 1903, citizens of the
town were startled by the sound of the
fire alarm signal from Box 23, located in
Jackson square, East Weymouth. A
combination rain and snow storm was in
progress at the time, and at the first call,
a loss that never could be replaced, it be-
ing one of the most beautiful ever con-
structed and keeping its beauty to the
last by swaying clear of the structure and
then settling majestically into the road,
all hope was gone, and immediately men,
women and children were questioning
how, when and where the meeting house
would be replaced. Some were in favor

THE FIRST STEP.
At the annual meeting in March, 1903,
a committee known as the Finance com-
mittee was appointed, who should have
charge of the soliciting of funds for the
proposed structure. The committee con-
sisted of Messrs. Charles A. Randall,
William C. Earle, Frank W. Bates and
William J. Colby.

The members of this committee began
at once upon their work and made re-
markable progress in securing donations
in a community which counts among its
members no men of wealth. One of the
moves of Messrs. F. W. Bates and W. J.
Colby was the organization among the
youths of the parish of the Young Men's
Alliance, having as a primary motive the
raising of funds for the church.

A building committee was also ap-
pointed, consisting of Messrs. Charles B.
Cushing, chairman; Rev. Emory L. Brad-
ford, Silas H. Tolman, Theodore H. Em-
erson, George M. Hoyt, Nathan D. Can-
terbury, Charles A. Randall, Mrs. Emory L.
Bradford and Mrs. George M. Hoyt, who
should have charge of the selection of an
architect and who should recommend to
the society plans for a suitable church
building.

SECURING A SITE.
The first move was the selection of a
suitable site, as there were many unfavor-
able features connected with the old lot.
The estate known as the Albert Humphrey
estate, situated on Commercial street near
Jackson square, was deemed the best ob-
tainable, and Rev. E. L. Bradford as a
special committee, by a flying trip to New
York secured most generous terms from
Mr. Hackett, the trustee of the estate,
and the deeds were passed. The property
purchased included a stable and about
five acres of land located almost in the
center of East Weymouth.

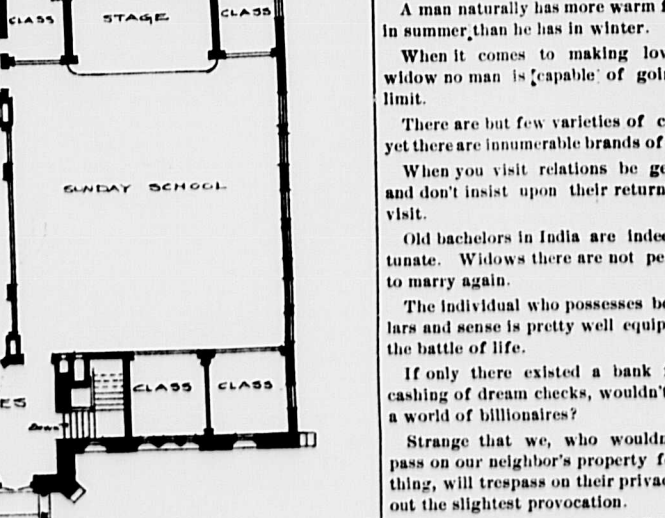

After careful consideration, the build-
ing committee selected Mr. C. Howard
Walker, one of the best known architects
of Boston, and the building of which the
corner stone is to be laid to-morrow is the
product of his genius.

Meetings of the society were held at
frequent intervals during the next eight
months, at which various plans and ideas
were presented for approval or disap-
proval, for acceptance or refusal; but it
was not until November that the destruc-
tion of the old place of worship, which
in accordance with the funds in hand and
in prospect, was presented and adopted.

TEN MONTHS SLIPPED BY.
After plans and specifications had been
submitted to various contractors and
builders, it was a source of gratification
to all concerned to learn that our local
contractor, Herbert H. Hale had offered the
most favorable terms and had been awarded
the contract. This was done on Dec-
ember 14, 1903. Snow set in at this time and it
was not until March 25, 1904, nearly a
year and two months after the destruc-
tion of the old place of worship, that
ground was broken for the foundation of
its successor. Since that time the work
has progressed rapidly, the stone work
being done by Messrs. Johnson and
Mortenson of 51 Arthur street, Quincy,
and to-morrow the corner stone will be
laid.

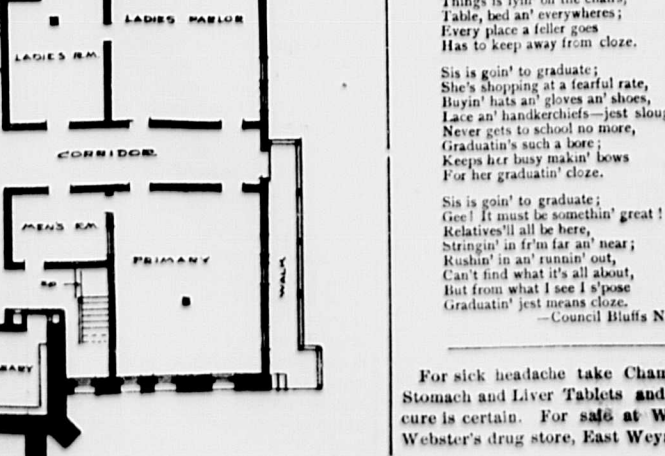

DESCRIPTION OF THE CHURCH.
The building, which was designed by
Mr. C. Howard Walker of 131 Devonshire
street, Boston, will set about 110 feet
from the street among a miniature grove
of large trees. It is to be 115 feet long
and 62 feet will be its greatest width. It
will be of the semi-Gothic style of Eng-
lish church churches, with a square stone
tower nearly 60 feet in height and a stone
buttressed wall in front, the material for
both tower and wall being Weymouth
seam-faced granite from Miller's quarries.
The windows will be grouped with Gothic
arched heads and are to be filled with
leaded glass and in some cases with me-
morial stained glass windows; there will

be three entrances: one being for
the pastor and choir, leading
to the pastor's room and to the choir room
in the basement, another on the basement
level on the south side leading into a hall
from which doors lead into the gen-
tlemen's rest room, the ladies' parlor and
dressing rooms, the dining room and
kitchen and the Primary room; and the

In the meantime, and in fact at present
and until the new building is ready for
occupancy, the church services are held
in the edifice formerly occupied by the
Unitarian society on Cottage street, al-
though other generous offers were re-
ceived, notably from the Methodist Epis-
copal society on Broad street, offering the
use of their rooms.

Edison Phonographs

A never ending source of enjoyment for the whole family.

If only one-half of the pleasure to be derived from a Talking Machine was re-
alized, no home would be considered complete without one. This is what a Talk-
ing Machine will do for you: It will bring new life to your home; it will make
it easier to entertain company; it will make everything more delightful; it can re-
produce selections from the popular organs and you will think a grand opera
chorus is right before you; you hear the strains of an inspiring march, and al-
most instantly that you are in some music hall listening to Sousa and his won-
derful band. A tireless and ever ready entertainer; requires no skill.

PRICES FROM \$10.00 TO \$75.00. We sell them on installments of only \$1 a week.

Do not confound the Edison with other Talking Machines. To those who have
heard only the other kind, the marvelous purity of Edison tones is a revelation.

The yellow fever signals have been
holdest by Gov. Latham of Texas. The
disease has again its appearance in Mexico
and there is fear lest the custom officials
allow the germinating mosquito to cross
the border.

The single word America will hereafter
appear upon embassy and consular seals
in place of the words United States of
America. The single word has been
judged the more fitting and effective for
the purpose.

Special reports on 206 trade unions in
England during the month of April
show an aggregate of 561,496 members
of these 207, or 57 per cent were un-
employed, compared with 439 in the pre-
vious month and 425 for April of 1903.

Nothing but a highly optimistic view
can be taken concerning the increase in
the apple crop in the United States. In
1890 there were 120,000,000 apple trees in
the country and in 1900 the number had
increased to 200,000,000. For long the
number will be 200,000,000.

It now appears that King Peter of
Serbia is to have a crown after all. It
was made from an ancient canon cast by
George, leader in the liberation of
freedom from Turkey 100 years ago.
Thus far King Peter has gotten along
quite nicely, but the chances are that he
may yet see the time when he would
gladly exchange the new crown for the
old canon.

During its first month paid admissions
to the St. Louis exposition numbered
542,028, an average of less than 15,000 a
day. Admissions by passes, aside from
those of persons employed on the grounds
were 450,062. The first month of the
exposition will of course, be the poorest,
but if the management is to take in just
enough money to enable it to repay the
government loan of \$1,000,000 it must
have a monthly average during the re-
maining months of the show of 2,000,000
paid admissions.

The bureau of statistics of New Jersey
gives out recent data regarding the pro-
duction of machinery in that state. The
greatest number of persons employed at
any time during the fiscal year 1903 was
19,042, an average of a little more than
17 to each establishment. The smallest
number was 14,329, an average of about
15 employees. The total sum paid in
wages, not including salaries, was \$9,365,
841, and the average yearly earnings of
workmen in the industry was \$507.32,
an increase of \$25.61 over those of the
previous year.

Thomas W. Lawson also knows several
things concerning the methods of the
Standard Oil Company, and by means of
a magazine article, Mr. Lawson is endeavor-
ing to put the public "next." Mr.
Lawson's magazine article is being pre-
sented by monetary motives, not by a desire to
square accounts with certain Standard
Oil men. In his article Mr. Lawson
places the loss occasioned by the Amal-
gamated Copper Co. at \$100,000,000, the
number of suicides at thirty and the num-
ber of persons driven to a criminal career
that ended behind prison bars at twenty.
This loss, Mr. Lawson attributes to the
Standard Oil Co., which he claims,
wrecked the Amalgamated.

Warning to Boys.
Several complaints have been made to
the authorities of the placing of explo-
sives upon the car tracks by boys. The
police are on the lookout for this class of
offenders and an example will be made of
the first one caught. Persons who tres-
pass upon private grounds while bathing,
or who bathe without suitable clothing,
will also be punished.

Sued by His Doctor.
"A doctor here has sued me for \$12.50
which I claimed was excessive for a case of
cholera morbus," says R. White, of
Cochelec, Cal. "At the trial he praised
his medical skill and medicine. I asked
him if it was not Chamberlain's Colic,
Colic and Diarrhoea Remedy he used as
I had good reason to believe it was,
and he would not say under oath that it
was not." No doctor could use a better
remedy than this in a case of cholera
morbus, in never fail, sold at William
B. Webster's drug store, East Weymouth.
